

The NC EMSC Program is offering a new training program

“I Need to Be Doing What? Transporting Pediatric Patients Safely: How Your Agency Can Safely Restrain Children Transported in an Ambulance”

Learn what available research suggests, how and where to restrain children of different sizes on an ambulance, and what restraint devices are available. Hands-on training with 4 different devices is an important aspect of this program. Don't miss out!

December 11, 2008
1:30 – 5:00pm
Durham County EMS
EMS Station 6
226 Milton Road
Durham, NC 27712

December 15, 2008
